

International Plastics Round-bottom Drum Liner

www.interplas.com/55-gallon-4-mil-round-bottom-drum-liners-38-x-40-p-dlrb43840pp

The form-fit, round-bottom shape of the DLRB43840PP minimizes wrinkles and folds, thus reducing stress that often tears flat-seam designs and allows complete recovery of valuable product from 55-gallon drums. Polypropylene film allows this liner to be used at temperatures up to 290°F. Standard, 4-mil film provides a contoured fit and delivers the best value. The liner is designed for easy installation and can be simply twisted and tied off to protect contents. Its flexible, heat-sealed construction is uniformly liquid tight.

TYPICAL APPLICATIONS: International Plastics round-bottom liners can be used for shipping or storing nearly any wet or dry product, viscous or thin liquid, powder, particulate or paste. Use of FDA- approved polypropylene allows DLRB43840PP to come in contact with food. This product is especially recommended for applications, such as food products that must be boiled, batch materials that pour better when heated, distilling/separation processes, moisture sensitive products, as well as greases and oils.
